all the quality of a real art school, but with the convenience, cost and comfort of well... not

the meat | courses
centered around a core set of quality classes and faculty... a grounded and centered program

the condiments | use of outside materials and facilities
making the experience more rich and tasty by involving the students with the community and acquainting them with outside facilities/opportunities/realities

the bun | social environment
holds us all together and supports our creativity

the veggies | relevancy
keeping us fresh, new and relevant... maintaining our relvancy by maintaining our awareness and fighting to continue to evolve, adapt and enrich

the name | a well established university
backed by a well known research university making available all kinds of innovative information, research and opportunities
